WHAT'S AT STAKE?
ISTA's Red For Ed priorities are crucial to building the future for Hoosier kids, schools and educators.

Fair and Equitable Funding
The future of public schools relies on strong, sustainable funding sources equitably distributed to benefit all students, in every ZIP code.

Recruiting and Retaining Teachers
Indiana teacher salaries lag other Midwestern states. Why shouldn't Hoosier students be able to keep and attract the best, most qualified teachers who earn a professional salary?

Kids' Learning Conditions
When class sizes are smaller, teachers have prep time for lesson planning and workloads are manageable, kids benefit.
